(Description).

(Title) MICROSCOPIC LIFE.

This motion picture is in two reels, 1,850 feet in length.

The first reel of this picture shows the following:-

First Scene: An adult Mealy Bug (*pseudococcus citri*), under the microscope.

Second Scene: Shows a Mealy Bug hatching from the cotton-like mass or cocoon.

Third Scene: Shows mother bug and young.

Fourth Scene: Shows Mealy Bugs feeding.

(All of these scenes are taken through the microscope with the stage illumined by the Ritterath "Cold Illumination" System.) (Patent applied for).

The second reel of this picture shows the following:-

First Scene: Shows Red Spider (Citrus pest).

Second Scene: Shows Red Spider feeding on orange leaf.

Third Scene: Shows Green Aphis and a Mealy Bug engaged in an altercation.

Fourth Scene: Shows three so-called "dancing worms".

Fifth Scene: Shows a drop of water under the microscope. In this drop of water is a living water mite, known as the "bosmina." It is seen feeding on what appears to be eggs of some other micro-organism.
